About us

MIDEVOPS
SERVICES

Global leader in Next-Gen Digital solutions

Gold
Microsoft Partner

Microsoft

aws

tenable

- Founded in 2018 & headquartered in Bangalore, India
- 140+ Team members
- Processes based on SEI CMMI, ITIL and ISO 9001:2015 & ISO 27001:2022 standards
- 30+ global customers
- Microsoft Technology Partner
- Amazon Web Services Consulting Partner
- Technology Partner : Tenable, Arcon, Trend Micro, Wazuh, Splunk, Beyond Trust, Secure Frame, Scrut, Knowbe4, INFOSECIQ

Who we are

Mission

Connect exceptional talent with dynamic opportunities, accelerating business success and nurturing excellence through Strategic Engagements Powered by Innovative Technology.

Vision

Empower the future of work by converging talent with world-class opportunities, fostering innovation and shaping careers globally.

Core Values

- Empowering Relationships
- Pursuit of Excellence
- Growth Mindset
- Adaptive Learning
- Creating Trust and Value

Service Offering

8+ Years of Experience	200+ Expert Candidates	50 + Enterprise Customers	22 + Fortune 500 clients	8+ Offshore Dev Centers	100+ Expert Consultants	40 + Specialized Recruiters

Assuring digital trust with our security service offerings

MIDEVOPS SERVICES

GRC Consulting

- Specialists in delivering bespoke information security governance, risk and compliance (GRC) consulting and advisory services

Infrastructure & App VAPT

- Network architecture review
- Cloud architecture review
- Configuration audit
- Internal audit monthly
- Policy review

Security Awareness Training

- Online/ in-person training with tailored content
- Online and offline training games
- Phishing Simulations
- Training Assessment & Certification

Phishing Simulations

- Phishing protection program
- Phishing reporting mechanism
- Regular identification of threats

Cloud Security

- Cloud Security assessment
- Cloud compliance audits
- Cloud Configuration audits
- Policy review and implementation of industry best practices

Endpoint Management

- Faster response and mitigation of security threats
- Rapid deployment of the latest security features and technology

MDR & SIEM

- MDR provides 24x7 monitoring of your network, endpoint, and cloud.
- SIEM equips and empower security operations with high-fidelity detection and response

SoC as a Service

- Threat Monitoring
- Incident Detection
- Incident Response
- Log and Data analysis
- Security tool management

Standards & Methodologies

NIST 800-115, OWASP (Mobile) Security Testing Guide, OWASP Mobile, Application Security Verification Standard, PCI DSS, The Digital Standard (IoT)

Tools

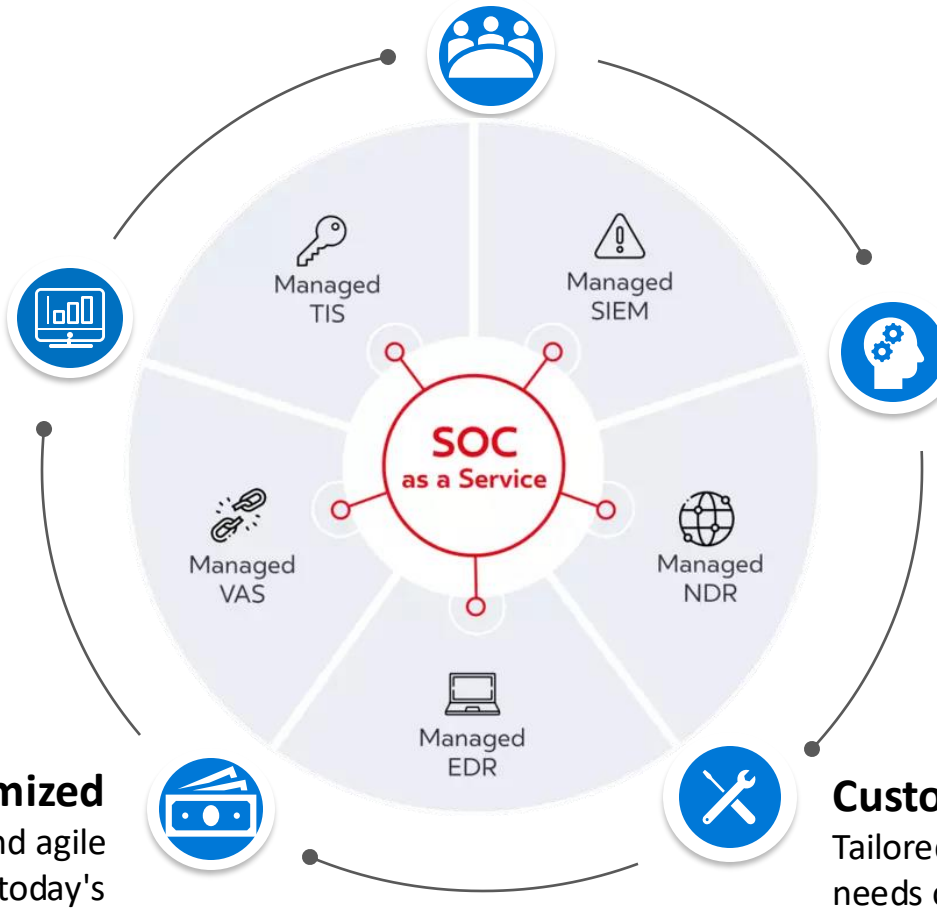
Tenable Nessus, Burp Suite Pro, Metasploit Framework, Cobalt Strike, Kali Linux

Enhance Your Security Operations with SoC as a Service

MIDEVOPS
SERVICES

Security Operations Center (SoC) as a Service

Full-fledged SoC capabilities without the overhead of building an in-house team



24/7 Monitoring and Response

Around-the-clock monitoring by certified security analysts to detect and respond to threats swiftly .

Advanced Analytics and Threat Intelligence

Utilize cutting-edge tools and real-time threat intelligence for proactive defense

Coherent & Optimized

Cost-effective, scalable, and agile security operations designed for today's evolving threat landscape

Customizable and Scalable

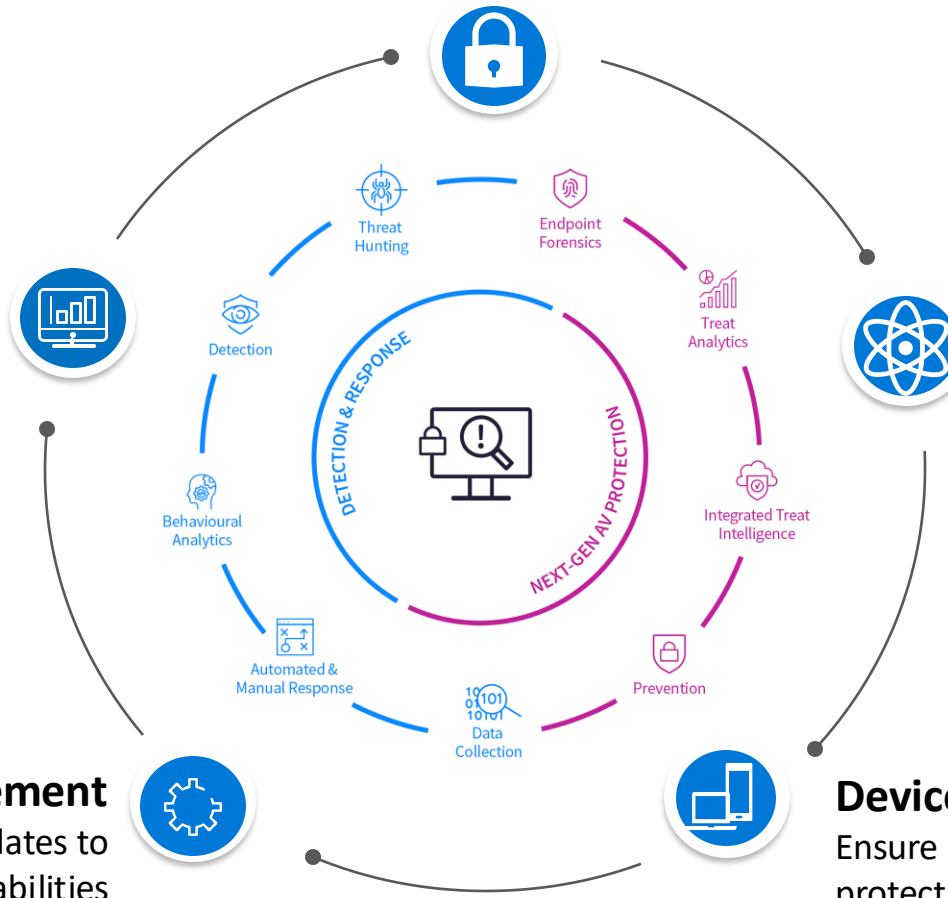
Tailored services to meet the unique needs of your organization, scalable as you grow

Endpoint Security Management Solutions

MIDEVOPS
SERVICES

Next-Gen Antivirus & EDR (Endpoint Detection and Response):

Advanced threat detection, rapid response, and remediation capabilities.



Continuous Monitoring

Proactive management to reduce the attack surface and ensure endpoint integrity

Zero Trust Access

Enforce Zero Trust principles to control access and protect data on all endpoints.

Patch Management

Automated patching and updates to eliminate vulnerabilities

Device Security

Ensure secure access and data protection for employee-owned devices

Detect and Respond Faster with MDR & SIEM Services

MIDEVOPS
SERVICES

Managed Detection & Response (MDR)

Continuous monitoring, threat hunting, and rapid response to threats in real time

Continuous Monitoring

24/7 expert support, advanced analytics, and AI-driven threat detection capabilities.

Security Information & Event Management (SIEM)

Centralized log management and analysis for comprehensive threat visibility .

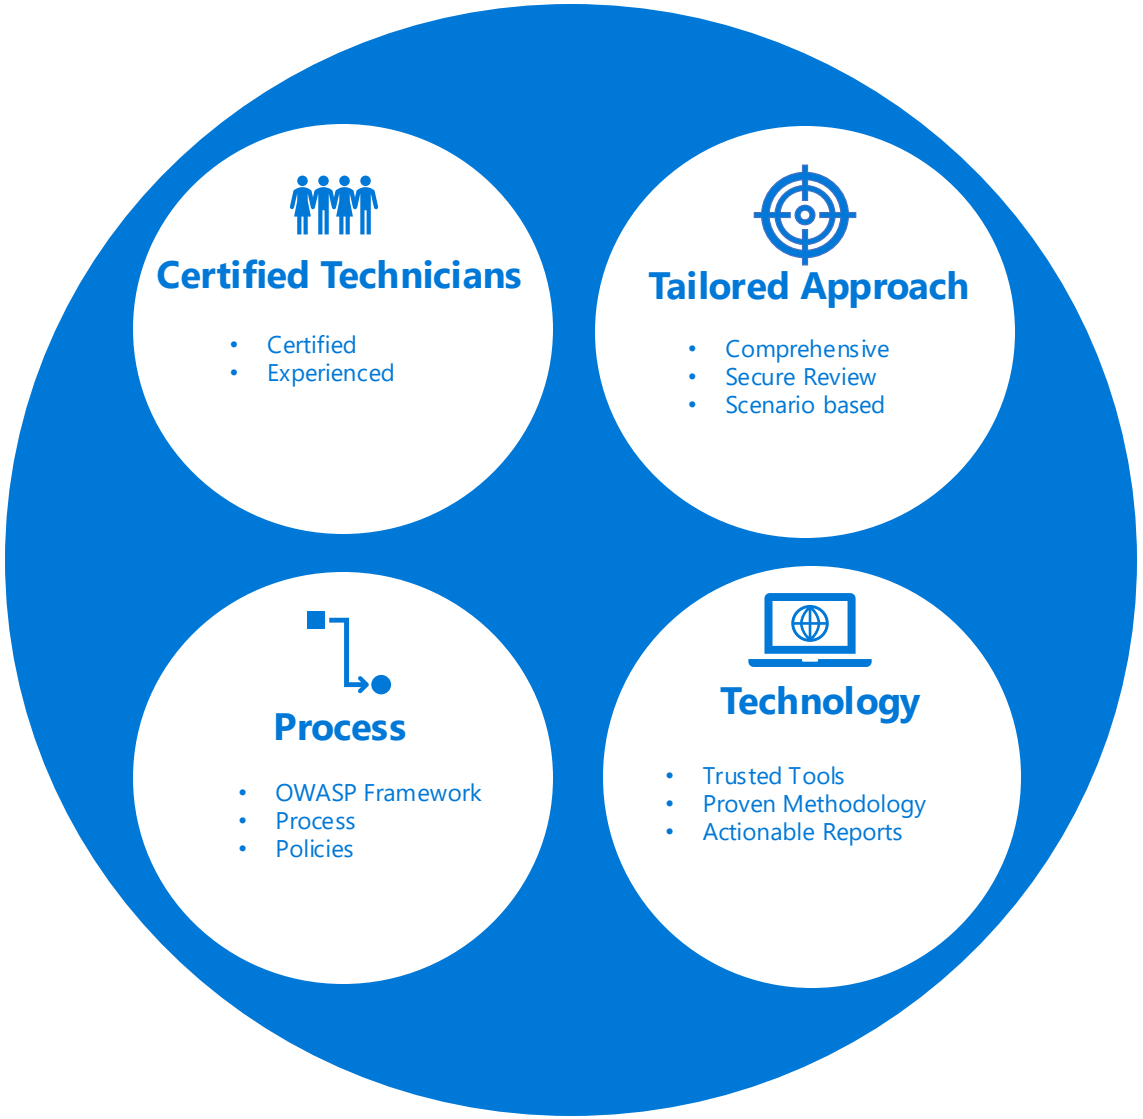
Automated Incident Response

Reduce mean time to detect (MTTD) and mean time to respond (MTTR) to incidents

Threat Intelligence Integration

Leverage global threat intelligence to detect emerging threats proactively

Infrastructure & Application Vulnerability Assessment / Penetration Testing (VA/PT)



Infrastructure VA/PT:

•Identify vulnerabilities across networks, servers, databases, and other IT assets.
•Simulate real-world attack scenarios to test defenses and uncover security weaknesses.
•Provide actionable remediation plans to enhance security posture.

Application VA/PT:

•Perform comprehensive assessments on web, mobile, and cloud applications.
•Identify OWASP Top 10 vulnerabilities, such as SQL Injection, XSS, CSRF, etc.
•Ensure applications are secure by design through secure code review and testing.

Cyber Security Products

MIDEVOPS
SERVICES

Security- Systems	Antivirus, Data Leakage Prevention, Encryption,
Security- Gateway	Next Generation Firewall, SSL VPN Solutions, 2 factor authentications, Web Application Firewall, NAC, MDM Solutions.
Security- content	Web Security, Mail Security, Server and datacenter security.
Backup, Archival and Storage	Endpoint Backup and recovery, File and mail Archival, Wan Optimization, Appliance on Back up and Deduplication
Security compliance and audits	Vulnerability audits and Penetration testing, SAM Advisory, IT lifecycle management, Service desk, Helpdesk, Virtualization

Governance, Risk, and Compliance (GRC) Consulting

MIDEVOPS
SERVICES

Strategic Alignment

Align security policies with business goals and regulatory requirements (GDPR, HIPAA, ISO 27001, etc.)

Continuous Monitoring

Enable continuous monitoring and auditing to identify gaps and enhance governance

Risk Management

Identify, assess, and mitigate risks to protect business assets.

Policy Development

Design and refine security policies, procedures, and frameworks

Compliance Assurance

Develop and implement controls to ensure compliance with industry standards.

MIDEVOPS
